

I did some refactoring between taking these screenshots and turning in the final project, and some debug messages were modified. The program outputs are all still correct.

I also did work with Glauk to ensure my outputs looked correct and to make sure my C files worked. I wrote all my code, and affirm that I completed this project with full academic honesty following the Honor Code.

C code tests:

print1K.coff:

```
jacklynch@fedora:~/Documents/OS/nachos.demo/src/nachos/proj3$ cd /home/jacklynch/Documents/OS/nachos.demo/src/nachos/proj3 ; /usr/bin/env /usr/lib/jvm/java-17-temurin-jdk/bin/java -agentlib:jdwp=transport=dt_socket,server=n,suspend=y,address=localhost:44901 -XX:+ShowCodeDetailsInExceptionMessages -cp /home/jacklynch/Documents/OS/nachos.demo/bin/nachos.machine.Machine -x print1K.coff
